

MINING NEWS OF CHAPARRAL

Successful Operation of Dividend Mine.

Large Bodies of Ore Blocked Out
in the Lelan Ready for
the Mill.

Chaparral, Oct. 20, (Special by Independent Telephone).—The Dividend Consolidated Mining company is pushing development work on both the Galena and Dividend properties and are milling a good grade of ore from both mines. No stoping is being done; and more than sufficient ore is being taken out in the course of development to keep the ten stamp mill running twelve hours each day. In fact the mill could be kept going twenty four hours per day without stopping if the water supply would admit of running the mill continuously. The company now has measures on foot for obtaining an ample water supply for a much larger plant and when the water becomes available they will enlarge their mill to at least twice its present capacity. There is now enough ore blocked out to keep the mill going day and night for the next five or six years. They use oil for firing the boilers, this fuel being fed to the furnaces by gravity and is not only proving perfectly satisfactory but effecting a large saving in the expense, the one set of boilers furnishing steam for both mill and hoist. The Dividend company now employs twenty men and everything is moving along with a smoothness which reflects credit on the management.

The Lelan mine has been developed along practical lines during the past two years and has splendid bodies of ore blocked out down to the 500 foot level. We understand that enough ore has been blocked to keep a ten stamp mill going for years. Considerable water has been encountered in the shaft and a spring on the property has been developed and is furnishing sufficient water with what comes in the shaft to supply a ten stamp mill. An additional water right has been secured, over in Eugenia gulch which now assures an ample supply, under all circumstances. It is understood that plans for a mill are now being considered and that within the next few months stamp will be dropping on Lelan ore. This will give employment to an additional force and add to the life and mineral output of what is destined to be the banner camp of this section.

Hank Bevering, superintendent of the Burlington, is putting up a new hoist on that property and also preparing to put in pumps.

R. L. Adams moved his family out from Prescott the first of the month and is now running the Lelan hoist. Fred E. Biles, manager of the Dividend Consolidated, made a flying trip to Prescott Monday on business. Fred is one of the republican nominees for the legislature but his business here will not admit of him getting out.

Joseph Jacob, who formerly ran the boarding house at the Lelan, now has charge in the same capacity at the Little Jessie.

A. E. Turnbull, who is working the New Year mine under lease, expects to make a shipment of ore in the near future.

E. G. Weil, the efficient superintendent of the Dividend mill, is making a good record and keeps matters going as smoothly as if on oiled wheels.

Politics and the Japanese-Russian war news form the chief subject for discussion in this camp but while the three tickets each have adherents this precinct will go republican by a nice majority.

FOR JUSTICE OF PEACE.

The undersigned hereby announces himself as a candidate for justice of the peace of Prescott precinct subject to the action of the voters at the polls, on November 8.

R. P. Talbot.

All kinds of job work promptly done at the Journal-Miner office.

MINE WARNING NOTICE.

Notice is hereby given to whosoever it may concern:
That the Bonnie Gold Mining company, situated at Chaparral, Yavapai county, Territory of Arizona, is being worked by F. L. McCroskey, of Chaparral, Yavapai county, Territory of Arizona, and that the said mine or the undersigned management and owners thereof, will not be responsible for any of the debts due to the employees for labor performed in said mine, or for any injuries sustained by said contractor, or his employees. All operations, who engage in the service of the said contractor, do so at their own risk. The said contractor, or any of his employees, is not the agent of the undersigned. By O. C. AINSWORTH,
President, (L. S.)
By ALEX. MILLER,
Secretary, (L. S.)

JEROME DOINGS.

Jerome, Oct. 19.—Fowler, Morrison and the republican candidates for county offices were given a warm and enthusiastic reception tonight. The meeting was held under the auspices of the Fowler club, of which Tom Campbell is president and which has a membership of 150. The opera house was well filled, nearly 600 people being present. The meeting opened with the singing of the patriotic air, "America," after which the speakers were introduced. Fowler was given an ovation and in the course of his remarks won many friends by his fair minded manner in discussing various subjects near people's hearts. Morrison spoke first, predicting an overwhelming majority for Roosevelt and Fowler on November 8th. He made an eloquent plea for the support of the republican nominee, who was classed as the ablest man in the territory to be sent to Washington. He told the people a few things about Smith and his Utah statehood actions. He also spoke of Santa Fe Pacific taxation deals which Mark claimed credit for passing showing that people of Flagstaff are alone responsible for that. Fowler spoke for an hour on statehood and irrigation and told of his efforts as a citizen at Washington in behalf of Arizona. Jerome will roll up a larger republican majority this year than ever before.

Guy Bailey arrived from Prescott this afternoon and will assume the position vacated by R. C. Lane in the Bank of Arizona. Mr. Bailey does not know definitely whether he will stay here permanently or not but is under the impression that he will.

Arthur Wood, who has been in the employ of the T. F. Miller company for some time past left for Prescott this afternoon where he will remain a few days before returning to his home in the east.

R. C. Lane, who has been employed in the Bank of Arizona for the past few years, has resigned his position and will assume the position of paymaster of the United Verde Copper company's office, M. Fraser, who has been paymaster for several years having resigned.

Considerable amusement was afforded the boys in the company's store by a drunken Mexican named Sandoval. The Mexican thought he had been authorized to clean out the store and after being thrown out several times was finally loaded into the delivery wagon by Deputy Sheriff Frank Nevin and carted off to the city jail, where he will have ample time to reflect and to reconsider his foolhardy actions.

The United Verde smelter shut down last night for repairs and to connect up the new smoke flues, with the big dust chamber which was recently completed. It is probable that the shut down will not last more than a few days and that the red metal will again be flowing from the big furnaces.

Hon. B. A. Fowler, republican candidate for congress, E. S. Clark, republican candidate for district attorney and the rest of the republican candidates arrived here this afternoon and were received by the Jerome committee of republicans at the Jerome opera house, which has been secured for the big republican rally this evening. People are coming into town from every direction to attend the meeting.

Barney Smith, of Prescott arrived in Jerome this afternoon.

Sheriff Joe Roberts arrived in town this afternoon to take part in the republican demonstration tonight.

R. E. Morrison arrived this afternoon to speak at the rally tonight.

Jerome, Oct. 20, (Special by Independent Telephone).—The most enthusiastic political meeting ever held in Jerome was held last night by the republicans. Many farmers and citizens from Cottonwood, Oak Creek, McDonald, Corville and the middle and lower Verde arrived in the afternoon to hear B. A. Fowler, and the county candidates speak on questions of vital importance to the county and territory. By 8:15 o'clock fully 650 people had assembled in the Jerome opera house to welcome B. A. Fowler, the republican nominee for congress.

The meeting was opened by the audience singing "America." Thos. E. Campbell acted as chairman introducing the speakers. Introducing Mr. Fowler, Mr. Campbell called to memory his associations with him in the legislature and classed him as the man most honored in all that body and as a man who always had a good word for everybody and did the right thing at the right time all the time. He concluded by saying that Mr. Fowler was a man of whom all Arizona should be proud. Mr. Fowler spoke in his usual easy manly and straightforward way and the enthusiasm was intense from the time the speaker reached the platform till his closing remarks. He spoke in part of irrigation and statehood. He stated that the Tonto basin dam was ready for action by the government when the irrigation bill was passed. He accounted for his not ap-

pearing before the statehood committee by saying that he had been forewarned by prominent political leaders who knew what the result would be.

Mr. Fowler won many votes last night by his statement of facts regarding single statehood the defeat of the joint statehood bill and the development and benefit to Arizona from irrigation.

He spoke of his record and of how he first became interested in irrigation which he regarded as the greatest issue before the people of Arizona and more particularly the towns dependent upon mining.

The audience listened intently and with much interest frequently applauding the speaker. Mr. Fowler made a most remarkable speech when he took into consideration the strain he has been under from long rides and sleepless nights. He showed great fairness and respect for Mark Smith, whose personality he did not touch upon during his speech.

At the conclusion of his remarks Mr. Fowler was given a great ovation which lasted several seconds and a Fowler club was organized composed of 150 strong republicans with Thomas E. Campbell as president.

Hon. R. E. Morrison during the course of his remarks referred briefly to Mark Smith's record and concluded by predicting the election of Fowler and Roosevelt by an overwhelming majority. Other speakers of the evening were Frank E. Jordan, Sheriff Joe Roberts, E. A. Haggott, A. S. Haskell, Leroy Anderson, E. S. Clark and W. A. Cilne.

The music was furnished by the Jerome orchestra and parodies were sung on Mark Smith which produced great amusement and laughter. The candidates left this morning for Prescott.

Mrs. Lucy Lopez left on this afternoon's train for El Paso, Texas.

Mr. DeMund, of the DeMund Lumber company, arrived from Phoenix this afternoon to look after his interests here and also to go on a deer hunt.

Mr. Gleason left this afternoon for Prescott.

Dan Bean and Charley Hooker left this afternoon for a deer hunt in the Mogollon mountains. The boys are a little late in getting out but will probably get some big game as they are both good marksmen.

The Gentry Bros. dog and pony show is at Jerome Junction and it is expected that a great many Jeromeites will leave tomorrow morning to take in what is said to be one of the best shows in the country.

Jerome, Oct. 21, (Special by Independent Telephone).—In the article published in the Journal-Miner of the 20th concerning the fire we beg to state that a mistake was made in the nationality of the men occupying the house, they being Austrians and not Italians.

Mayor G. W. Hall left for Prescott this afternoon to be gone a day or two on business.

A Mexican dance is being given in the Jerome opera house tonight for the benefit of the Mexican band and a large attendance is present.

Mr. Everett, who represents the Scranton correspondence school, arrived in town a day or two since and has established headquarters at the Boyd drug store, H. A. Kendall, of Prescott, being also in town representing the same school.

Mr. Dennison, of the Jerome Lumber company, and the DeMund brothers, of the DeMund Lumber company, left this morning for a deer hunt in the Mogollon mountains. They had a fine outfit consisting of a spring wagon and saddle horses. Mr. DeMund rode Frank Nevin's big blue horse "Mose," and on the way to the river the horse became unmanageable and threw Mr. DeMund off. Fortunately he was not seriously injured and up to a late hour the horse, which ran away, has not been found.

C. E. Hughes, an old time Jeromite, who has been in the east for several months, returned a few days since and expressed himself as being glad to greet his old friends. Mr. Hughes was rather disappointed with the eastern way of doing things. He will enter into the employ of the T. F. Miller company at the wholesale store.

Miss Rose Kirwaggen was in town today and relieved Miss Dicus at the Consolidated telephone office during her absence at the Junction.

Mr. Pollins, of Phenix, who has been camping at the Dumas place, was summoned late last night by telephone. A rig left for the Dumas place at 9 o'clock and arrived at Jerome at 4 o'clock this morning with Mr. Pollins, who left on this morning's train for Phenix, to attend his wife, who was taken suddenly ill.

The Boyd-Willard party returned to Jerome this afternoon. It was their intention to go to the Grand Canyon, but conditions arose which necessitated their return. Mr. Boyd walked to Flagstaff and from there took the train for St. Louis where he will attend the world's fair. Those who returned say that the weather was very cold on the mountains. They had a pleasant trip taking everything into consideration and killed one deer besides much small game.

McCABE NEWS.

McCabe, Oct. 18, (Special Correspondence).—The basket social given for the benefit of the Sunday school, church and Pastor Ferguson at Union hall last evening was very largely attended. Numerous games for which prizes were given were indulged in until 10 o'clock when the lunch baskets which had been prepared by the ladies were put up at auction and their sale furnished a great deal of amusement. Edward Butts acted in the capacity of auctioneer and he proved an expert in creating rivalry for the attractive baskets of things edible. He kept the large crowd in a roar of laughter at his numerous references to the packages offered and thus secured good prices from all sales. Many of the baskets brought from \$5 to \$6 and as the purchaser had the privilege of eating supper with the lady who prepared the basket and as the baskets were all sold before the purchasers knew who their partners were to be the bidding was largely influenced by the seller's talk and the appearance of the packages. It was 11 o'clock before the auction was over and everyone was in fitting appetite to do full justice to the well filled and elaborately prepared packages. Fragrant coffee was prepared in a small kitchen and epicures could wish for no more dainty spread. After supper six couples competed in a cake walk, of which the prize offered was an elegant fruit cake. The social was attended by about 150 people and netted over \$80 for the church cause. Everybody had a splendid time and an affair of this kind once a year will meet with the same liberal patronage.

George Flammer has just moved into his elegant new brick store and now has as fine a store and as nicely arranged stock of goods as can be seen in most cities of 10,000 population. George carries a large stock and as he is enterprising and accommodating enjoys a profitable trade and has the good will of the entire camp.

The postoffice is nicely fitted up in the new Flammer block and Assistant Postmaster Colclasure is justly proud of his berth and his usual courtesy and painstaking care now has an additional smile added for his numerous callers.

Early Friday morning while the engineer at the McCabe mill was making an examination of the gasoline tank, located a short distance from the mill, the gas ignited from the lantern he carried and an explosion followed immediately, causing a fire which for a short time threatened to be a disastrous blaze. The chemical engine was gotten promptly on the scene and did excellent work quickly extinguishing the fire. Had it not been for the convenience of the chemical engine the Model Gold Mining company would no doubt have suffered the loss of their new mill, also their office, store room and assay office and possibly their hoisting plant.

Last Saturday morning about 7 o'clock a frame cottage on Prospect hill, belonging to Miss Julia Murphy, of Prescott, was discovered to be on fire. The cottage was occupied by four miners who had come off shift and gone to bed only a short time before. They are supposed to have left a candle burning the flames of which caught the window drapery and the building was in flames before the men were awakened. The occupants lost most of their effects and one of them barely escaped with his life, getting out of the building with nothing but his night clothes. The building was a total loss with no insurance.

Mrs. A. C. Massey won the elegant fruit cake awarded at the basket social last night in the cake walk contest.

A little twelve months' old boy of A. E. Davis fell against a heating stove and burned his face and hands quite badly. Dr. Pearson was summoned and gave the little sufferer medical attention. The doctor reports this afternoon that the child will get along all right.

McCabe, Oct. 20, (Special by Independent Telephone).—Brown Swafford, who works at the McCabe mill, left this morning for a month's visit with his mother in Atlanta, Georgia. He will also take in the St. Louis fair.

Dr. C. E. Pearson is looking after the practice of Dr. R. N. Looney during the latter's absence on a hunting trip and later we will be out doing campaign work.

A poverty ball will be given at Union hall next Friday night under the auspices of the Pin Head club. Prizes will be given for the best sustained characters.

John Bertram left Monday for a several weeks' visit in St. Louis and other eastern points. John expects to take in the big fair and other sights as long as his money holds out.

C. A. McEneen left Monday for Riverside, California, to visit his parents.

C. T. Joslin, general manager for the Model Gold Mining company is expected back daily from a three weeks' visit in Chicago.

The Goldstone mine is installing a new electric dynamo for the purpose

of lighting the mine and hoist house, also in hoisting from the winze between the 700 and 800 feet level.

Superintendent Mike Enright, of the Gladstone property, reports the usual output of ore and considerable development work being done. About eighty five men are now employed and this force will be maintained.

It is understood here that Mrs. Dr. Bradford, who now controls the McCabe Extension mine is taking steps looking to the early resumption of work on that property.

The McCabe mill is kept running steadily and the mine is also shipping high grade ore. They are doing considerable amount of development work and some few ore bodies are being opened up. The boiler at the hoist gave some little trouble last week, but everything is again moving smoothly and sinking the shaft to the 800 foot level will be renewed.

F. B. Flora, who is a brother to W. K. Flora, republican candidate for probate judge, is working at the Gladstone and is as popular with his fellow workmen as W. K. Flora is with his associates in Prescott.

George Flammer is preparing to make extensive alterations in his residence and is desirous of having a home in keeping with his mercantile establishment.

Ed Butts is acting as assayer and bookkeeper at the Gladstone during the absence of A. C. Lamb, who is on a trip east.

S. B. Hall, Worth Rybon and Assayer Chamie are on a deer hunting trip in the Bill Williams country.

Mr. and Mrs. Ernest Childers have given their little daughter of recent advent the attractive name of Vivian.

F. E. Biles, general manager of the Dividend Consolidated Mining company, made a trip to Prescott yesterday returning today.

George Flammer, who is local agent for the Journal-Miner reports its circulation here as growing rapidly and that everyone is greatly pleased with the news service and enterprise shown by the new morning daily. They like the idea of having the news in such a concise and readable form.

Politics are the chief subject of discussion these days and wherever one sees two or more gathered, it is a safe wager that the topic under consideration is the candidates and the coming election. It is hard to get just how the matter will stand in this precinct but from the evidence now before your correspondent we should advise betting on McCabe giving a republican majority.

Charles Fisk returned today from a trip to Prescott.

O. F. Caton leaves next week for a visit of several weeks at the St. Louis fair and eastern cities.

The voters of McCabe are anxiously looking forward to the visit of B. A. Fowler and he is sure to make a great many friends at this place. The recent visit of Mark Smith and Col. Wilson is still vivid in the minds of all and they are ripe for the effect of contrast. McCabe will turn out to hear Fowler and he will surely win a majority of the votes in this precinct.

McCabe, Oct. 21, (Special Correspondence).—The McCabe mill of the Model Gold Mining Co., was shut down a few hours yesterday while new belts were being put on.

Tom Schultz, of Prescott, who formerly published the Prospect, was out yesterday circulating among the boys. We did not learn his errand but presume he was doing some quiet political work.

J. N. Hoover, one of the miners at the Iron King, was quite badly hurt by a cave in at that mine. Dr. Pearson went over and patched him up and says he will be around in a few days.

Mrs. E. Childers left yesterday to visit her parents at Silver City, New Mexico. She will remain all winter.

Mrs. O. Temple will leave early next month for San Jose, California, where she will permanently reside.

T. H. McCarty has been on the sick list for several days but is now on the improvement.

Fall weather has put in an early appearance this year and the last few nights have been much like winter.

Arizona Mutual Savings Bank.

Notice is hereby given that subscriptions to the capital stock of a banking corporation to be known as Arizona Mutual Savings Bank, will be received at Room 24, Bank of Arizona Building, Prescott, Arizona, between the hours of 10 o'clock a. m. and 12 m., of each day from October 10th, 1904, until November 15th, 1904. Subscriptions will be taken at par value of stock of proposed corporation, to wit: \$10.00 per share, and must be paid in on or before December 1st, 1904. A large amount has already been subscribed. If a sufficient amount of local subscriptions are received the proposed bank will begin business in Prescott, Arizona, in the near future. Address letters to Lock Box No. 453, Prescott, Arizona.
